

# Ping Pong Recalls

This is a two player game that gets your dog ping ponging back and forth and helps cement the idea that the recall cue always leads to awesome fun.

You'll need to make sure you've spent lots of time charging your recall cue before you play this game!

## How to Play:

1. Find a safe open space
2. Each human needs your dogs recall reward to hand (toys or treats), label yourselves person one and person two.
3. Person one lightly holds onto the dogs harness or longline
4. Person two jogs away a few paces
5. When the dog is looking at person two person two will recall the dog, person one will let go of the dog
6. When the dog reaches person two, throw a party, play tug, give them their favourite treat, then gently take hold of their harness or longline

7. Now its person ones turn to jog away
8. When the dog is looking at person one they will call the dog and person two will let go of the dog
9. When the dog gets to person one, throw a party, play tug, play games, throw treats
9. Repeat, Repeat, Repeat!

## To make this harder:

Increase the distance you're asking the dog to recall across

To make this more exciting:  
Run in different directions!

**Top Tip:** This is a high arousal game that will get your dog super giddy, make sure to do a calming activity after like a game of 'find it' to help bring the arousal down.
