

Tuggy

Tuggy is a brilliant, interactive game that you and your dog can enjoy together; it's great for building your relationship, rewarding great choices and providing you both with a work out!

To play:

1. Find an awesome toy your dog seems interested in!
2. Animate the toy! Wiggle it along the floor, away from your dog, make silly noises and make it a bit of a challenge for your dog to get hold of. Note I said "a bit"; it wants to be interesting but achievable!
3. When your dog gets hold of the toy, celebrate and verbally praise them, keep hold of the toy and gently pull against it.
4. Let your dog lead the way... keep pressure on the toy but if they pull backwards go with them so they win the tug of war. If they do a crazy head shake, keep hold of the tuggy but let your arm go floppy so you don't dislocate your elbow!

5. If they accidentally let go of the toy, wiggle it around to make it a challenge to get hold of again

6. To end the game throw some treats on the floor to sniff out

Tuggy is all about having fun together; get excited and show your excitement by making silly noises!

Top Tip:

Keep tuggy toys out of reach and only bring them out when you're ready to play together... these toys are SUPER special!

Your toy is a rabbit not a bird, keep it low to the ground to prevent jumping.
